

Corona Max Quick Saw Folding Saw - 7in RCQS7800

Details

Cut up to 2.5X faster than comparable professional saws. The patent-pending tooth pattern helps keep the cut channel free of sawdust. Impulse hardened teeth stay sharp longer. Dual cutting positions for regular cuts and one for difficult to reach branches. Locking blade with aluminum handle and release button make it lightweight and easy to carry. The 7" straight blade offers superior cutting stability for small to medium branches. Elastomer grips provide excellent hand grip in wet or dry weather and reduce fatigue. Replaceable locking blade.

- Cuts 2.5X Faster
- Patent-pending tooth pattern
- Dual cutting positions for regular and difficult-to-reach branches
- Replaceable blade
- Locking blade
- Aluminum handle and release button
- Lightly textured elastomer grip helps reduce hand fatigue
