

# Aqua Aid Pellets - Box/24

RG3500

## Details

Aqua-Aid penetrant provides a uniform soil moisture profile by modifying the water surface tension. Reduce the required amount of irrigation and rain water by as much as 30% resulting in less hand watering, less maintenance expense and a healthier plant. 100% Active ingredients. Increases water penetration, reduces water tension, helps wet hydrophobic soils and reduces hand watering. Provides uniform wetting and increases nutrient uptake. Up to 40 acres.

## Specifications

Manufacturer	Aqua-Aid
Package Quantity	24

## O.J. Company

294 Rang St-Paul Sherrington, J0L 2N0
