

Kochek Dual Range Nozzle - 1in - 20-60 gpm w/Bumper RG90015

Details

Kochek Dual Range Nozzles provide 60 GPM at optimum flow rate to allow for heavy watering of turf or infields. The Dual Range feature allows the nozzle to adjust from 60 GPM Straight Stream to 20 GPM Fog making it the most versatile of all Dual nozzles while providing great volume capabilities. Constructed of lightweight anodized aluminum, stainless steel and rubber with powder coating for durability and reliability. Use with 1" hose for best results. Made in USA.
