

Rain Bird PRS-Dial with Pressure Indicator Cartridge

RGB33135

Details

The PRS-Dial is an excellent means of regulating outlet pressure at the valve regardless of incoming pressure fluctuations. The visible scale makes adjustment quick and easy. The regulator fits all Rain Bird PGA, PEB, PESB, PESB-R, EFB-CP, and BPES series valve. Regulates and maintains constant outlet pressure between 15 and 100 psi (1.04 to 6.9 bar) within 3 psi (0.21 bar). Adjustment knob with detents permits fine-tune setting in 1/3 psi (0.02 bar) increments. Dial cartridge makes installation and adjustment quick, easy and accurate Improved spike reduction capabilities reduce water hammer. Ergonomic design with snap-tight cover to prevent vandalism. Waterproof dial cartridge eliminates fogging and binding. Dial cartridge retrofits into all existing PRS-D units. Schrader valve connects pressure hose gauge, ordered separately. Easy field installation. PRS-Dial threads underneath the solenoid and adapter. Corrosion-resistant glass-filled nylon for rugged performance.

Specifications

Manufacturer	Rain Bird
Box Quantity	10
Package Quantity	1
