

Rain Bird 12 in Square Flat Grate - Green

RGDG12SFG

Details

A rugged square grate designed to be used in conjunction with a catch basin, this grate is manufactured from a structurally foamed High Density Polyethylene (HDPE) with a UV inhibitor to reduce sun damage. It has large opening slots for maximum flow while still preventing large debris from entering the drainage system. Typical application would be areas where floating debris would block a flat grate. For safety reasons, and to prevent vandalism or theft, the grate has two holes enabling it to be screwed onto the basin.

- Manufactured from structurally foamed High-Density Polyethylene (HDPE).
- UV stabilized to protect from sun degradation.
- Textured anti-skid surface, for flat grate only.
- Load rated for autos and light trucks at speeds less than 20 mph. Maximum load rating based on basin encased in concrete and weight uniformly applied across entire grate surface.
- Includes two screw holes to secure to basin. Use #6 1.5" long Phillips flat head stainless screws.
- ADA compliant. Flat grate only.

Specifications

Manufacturer	Rain Bird
Manufacturer's	DG12SFG
Model No	
Box Quantity	10
Package Quantity	1
