

# Drum Vent - 2" Brass Horizontal

RJ08300

## Details

Drums of flammable liquids require venting to relieve pressure build-up due to heat and also prevent creation of a vacuum when liquid is being drained off or drum is subjected to sudden cooling. Justrite Drum Vents provide automatic pressure relief. Operating valve opens at five psig internal pressure in normal service. Vacuum relief is manual or automatic depending on the model and permits four or more gpm flow through a standard .75" faucet. All vents include a flame arrester for added safety.

- Automatic pressure relief for vertical or horizontal drums
- Flame arrester for added safety

## Specifications

Manufacturer	Justrite
Material	Brass

## O.J. Company

294 Rang St-Paul Sherrington, J0L 2N0
