

Prowler Owl

RP2007

Details

Have a problem with feral pigeons, starlings or geese roosting, feeding or breeding on your property? The owl is a predator, preying on birds, moles, mice, and small pests catching and eating nearly everything in its path. The Prowler Owl is an always moving, life-size flying replica of the Great Horned Owl with intimidating glassy eyes that "follow" pests and a 44 in. (1.1mm) wingspan flapping in the breeze. Constructed with accurate markings, resin head, durable "iron hide" fabric body parts supported by woven flexible cables and riveted plastic struts and realistic 44 in. moving wings. Install on a 1/2 in. pole or suspend on fishing line.

- Feral Pigeon, Starling, Geese and Small Pest Control
- Life-Sized Owl Always Moving and "Hunting"
- 4 Foot Wingspan and Accurate Markings
- Wings Flap in the Wind
- Intimidating, Glassy Eyes "follow" Pests
- Coverage Up To 6,000 Sq. Ft.
