

Valve Handle Spigot

RP6115

Details

This Valve Handle Spigot must replace the original push button spigot when liners are used. Slide the hose tube through the spigot, then, trim 2" beyond the spigot to prevent cup from touching spigot while dispensing liquid, providing maximum sanitary protection. Liquid never touches inside cooler or spigot, reducing cleaning labor and maximizing sanitary protection. Dishwasher safe. Black.

- Maximum sanitary protection
- Liquid never touches spigot
