

Solo Portable Broadcast Spreader

RSL421

Details

This chest-mount portable broadcast spreader conveniently distributes a variety of materials over irregular terrain more evenly and conveniently than a wheeled spreader. Durable polyethylene tank, fingertip controls, large 6" filler opening and screw-on top for spillage prevention and operator protection. Ideal for spreading grass seed, sand, rock salt, fertilizer, cleaning agents, palletized lime, sand and oil absorbers. Padded, comfortable, cross-shoulder strap. 20 lb. capacity.

- Portable broadcast spreader
- Durable 20 lb capacity polyethylene hopper
- Fully enclosed gearbox is corrosion resistant
- Fingertip levers control direction and volume
- Large 6" filler opening
- Screw-on cap protects operator from chemicals and dust
- Padded, comfortable cross-shoulder strap
