

Spyker Ergo-Pro 80 lb Broadcast Spreader - Powder Coated

RSPY80-1P

Details

The Ergo-Pro 80 lb Broadcast Spreader is designed to spread seed, sand, fertilizer and ice melt. The bridge-free hopper geometry allows material to flow to empty. The ergonomically designed welded handle adjusts for operators height 5'3" to 6'8" to reduce fatigue. Includes Spyker Dial for accurate spreading material and Accuway for consistent and even spread width of 4' to 12'. All-welded impact-resistant frame, fully enclosed metal gears and support stand. Large 13" x 5" pneumatic tires. Includes fitted cover and full deflector. Poly hopper with powder-coated frame. 80 lb. Capacity.

- Impact-Resistant, Bridge-Free Hopper
- Fully enclosed metal gears
- Ergonomic adjustable hand
- AccuWay technology ensures an even, balanced spread pattern.
- Lift Handle to reduce strain when lifting, even when the hopper is full.
- Fully Enclosed Metal Gears with Zerk Fittings
- Fitted Cover with Easy On/Off Tab Included
- Large 5i x 13in Tires
