

Reel

R33-5040

Details

R&R Reel blades are manufactured from high carbon-boron alloy steel and then hardened to RC46-49 to match the temper of our bedknives and original equipment bedknives. All R&R Reels are cylindrically ground on bearing surfaces and then relief ground. Reels are then precision computer balanced for extended bearing and reel life. R&R Products Reels are guaranteed against defects in material and workmanship for the life of the reel under normal use.

- High Carbon-Boron Alloy Steel
- Cylindrically Ground on Bearing Surfaces
- Precision Computer Balanced

Replaces

R&R Products	R36-4080
Toro	33-5040, 36-4080

Specifications

Manufacturer	R&R Products
