

Double Alloy Hollow Tine with Carbide Tip - .750MT x 4.750L x .530OD R410

Details

The R&R Carbide-Tipped Alloy Hollow Tine construction is the same special high carbon alloy steel tubing and hardened to RC45-48 as the alloy hollow tines, with the addition of a carbide tip for even longer life. The advantage of using carbide tipped tines is the ability to maintain your maximum aerating depth consistently over the life of the tines. You can expect these tines to last 6-8 times longer than the R&R Standard Hollow Tines. Carbide tipped tines are not recommended in rocky soil conditions, as carbide, which is extremely wear resistant, can break when encountering hard impacts in rocks.

Replaces

Salsco D-027

Specifications

Manufacturer	R&R Products
A - Tine Type	Alloy Hollow
B - Tine Mounting Dia.	.750 in (19mm)
C - Tine Length	4.75 in (121mm)
Carbide Tip	Carbide Tip
D - Tine Tip Outside (Hole) Dia.	.530 in (13.5mm)
E - Tine Tip Inside (Core) Dia.	.400 in (10.2mm)
F - Tine Wall Thickness	.049 in (1.2mm)

Fits Models

Salsco Aerator

O.J. Company

294 Rang St-Paul Sherrington, J0L 2N0
